

### Sentry Siren's IPAWS Interface

- Author CAP messages in E.P.I.C. and distribute information over FEMA's IPAWS network:
- One-time cost - there are no subscriptions or annual plans:
- When combined with STORM SENTRY, E.P.I.C. can also control your warning sirens and monitor your weather.

Sentry's *E.P.I.C.* will serve as the only interface you will need to take advantage of the incredible power of FEMA's Integrated Public Alert and Warning System (IPAWS). With *E.P.I.C.*, IPAWS Alerting Authorities can author and distribute their common alerting protocol (CAP) message through IPAWS to reach NOAA weather radios, mobile devices, digital road signs, and many more emergency communication platforms.

True to form, Sentry Siren is providing this interface for a low, one-time cost. We won't gouge you with annual subscription costs or update fees. We are here to help you harness the power of a nation-wide, integrated communication network. With or without warning sirens, *E.P.I.C.* takes emergency communication to an entirely new level, which, ultimately, saves lives. That is what we are all about.

#### Communication devices reached through IPAWS:

- Broadcast
  - Radio
  - TV / Cable
  - Satellite
- National Weather Service (NWS)
  - NOAA All-Hazards Weather Radio (NWR)
  - NOAA Weather Wire Service (NWWS)
  - Emergency Managers Weather Information Network (EMWIN)
  - NWS websites and internet feeds
- Mobile Devices through Wireless Emergency Alerts (WEA)
- Warning sirens
- Digital road signs
- Many other emerging technologies

#### Advantages of *E.P.I.C.* / IPAWS:

- Monitor weather and control your outdoor warning sirens from the same interface - IPAWS interface combined with STORM SENTRY.
- One-time cost - no subscriptions
- Lifetime technical support and training included with each purchase
- PC and tablet interface
- Multiple users can log in and use the same interface without the need for multiple user licenses
- IPAWS messages are not affected by network congestion - they take priority over normal network communication
- IPAWS is a free service provided to emergency management personnel by FEMA and the U.S. Federal Government.
