Model 10V2T:

The 10V2T is Sentry's introduction into dual tone warning sirens. Featuring a dual rotor/stator configuration, the 10V2T produces both 460Hz and 920Hz tones concurrently. This dual pitch configuration provides an excellent balance between low frequency penetration and high frequency reflectivity / "bounceback."

Key features:

- Rated at 121dB(C) at 100ft.*
- 4,000ft. estimated coverage radius / effective range*
- 10HP, continuous-duty AC motor; 3PH only; 208-240VAC standard
- Omni-directional (non-rotating) warning siren
- True 360 degree full dB sound output
- 100% maintenance free
- Electro-mechanically generated sound
- 5 year factory warranty
- Powder coated steel construction. Stainless steel available on request.
- Easily replaces aging existing sirens

"We are so pleased with our selection of Sentry Siren, Inc. as our warning siren system supplier. The performance of our Sentry sirens is impressive; they are very reliable and very loud. And the customer service they provide is second to none. We would highly recommend Sentry to anyone looking to invest in their community with a warning siren system."
